

Chanay Street

Percussion equipment can be unloaded close to the stage by using the unloading/workshop area. Please have your truck move to the parking lot as soon as you finish unloading.

Directors and students should enter the building at the Main Fine Arts Entrance. Please be quiet in this area to avoid disrupting the sight reading room. If possible, have students leave their cases on your buses. If necessary, we will use the hallway between choir & band for case storage, but space is limited.

After sight reading, please exit directly to the parking lot with all of your equipment.
